From November 22 to December 23, 2022, you can see in the lobby of the ETSA URV in Reus, the exhibition "Arquitectes en construcció", organized by the Tarragona Demarcation of the College of Architects of Catalonia.

By means of an exhibition and a printed publication of the Final Degree Projects of 34 collegiate architects, the Tarragona Department of the College of Architects of Catalonia recovers the edition of this compilation that was last published in 2006.

The exhibition is born from the desire to support recently graduated architects and bring the academic and professional fields closer together. This edition includes the final degree projects from 2007 to 2021.
