Within the cultural program of the AVANTGUARDA cycle, we have the opportunity to participate in the debate group formed by Vivas Arquitectos, Josep Bunyesc and Maria Sisternas, with the theme of environmentalism 'sustainable development in public works'. The act is moderated by Daniel Muñoz.

Vivas Arquitectos [3] is a studio founded in Barcelona in 2006, it works by applying criteria that take into consideration at the same level both formal, material and functional issues as well as economic, environmental and social issues that guarantee the sustainable development of projects.

Josep Bunyesc [4] recognized with several awards for his professional career with the construction of low-energy and sustainable homes.

Maria Sisternas director general of INCASOL (Catalan Institute of the Sun) as the main agent of urban development in Catalonia and the instrument of the Generalitat to implement housing and urban planning policies.

At the end of the debate there will be a dinner-colloquium with the speakers at the Barhaus restaurant. You can sign up by sending an email to comunicacio.tar@coac.net [5].
Dinner price €22.

The AVANTGUARDA cycle is divided into four main sections: environmentalism, experimentalism, communicationism and academicism. The format of these four sections and on different days will be that of a conference [C], a debate group [G] and a master class [M] per month.
