On **Thursday, December 1, 2022, at 7:30 p.m.**, we will have the opportunity to listen to the **LACOL Arquitectura Cooperativa conference**, where architect Ari Artigas will talk about the history of the cooperative and its most relevant projects. A face-to-face conference offered by the Tarragona Region of the College of Architects of Catalonia.

Lacol is a cooperative of architects that works from the Sants neighborhood of Barcelona. They work to generate community infrastructures for the sustainability of life, as a key tool for the ecosocial transition, through architecture, cooperativism and participation. They work with architecture for social transformation, as a tool to critically intervene in the immediate environment. Always in parallel with society, acting in a fair and supportive manner starting with a horizontal work system.

They believe that the way to transform the city is based on the active participation of the people who live there and proactive action. They work on the interests related to the quality of life of all the people who share the city. The contribution of the architect is made at the heart of the urban movement, as another part of this movement, helping to translate citizen concerns and embody them on paper, providing criteria for the definition of objectives and strategies, as well as tools to define and communicate ideas through drawing, graphic representation, etc.

They encourage debate and discussion on the uses of public spaces and the management of urban spaces, city models, participation and heritage recovery, among others.

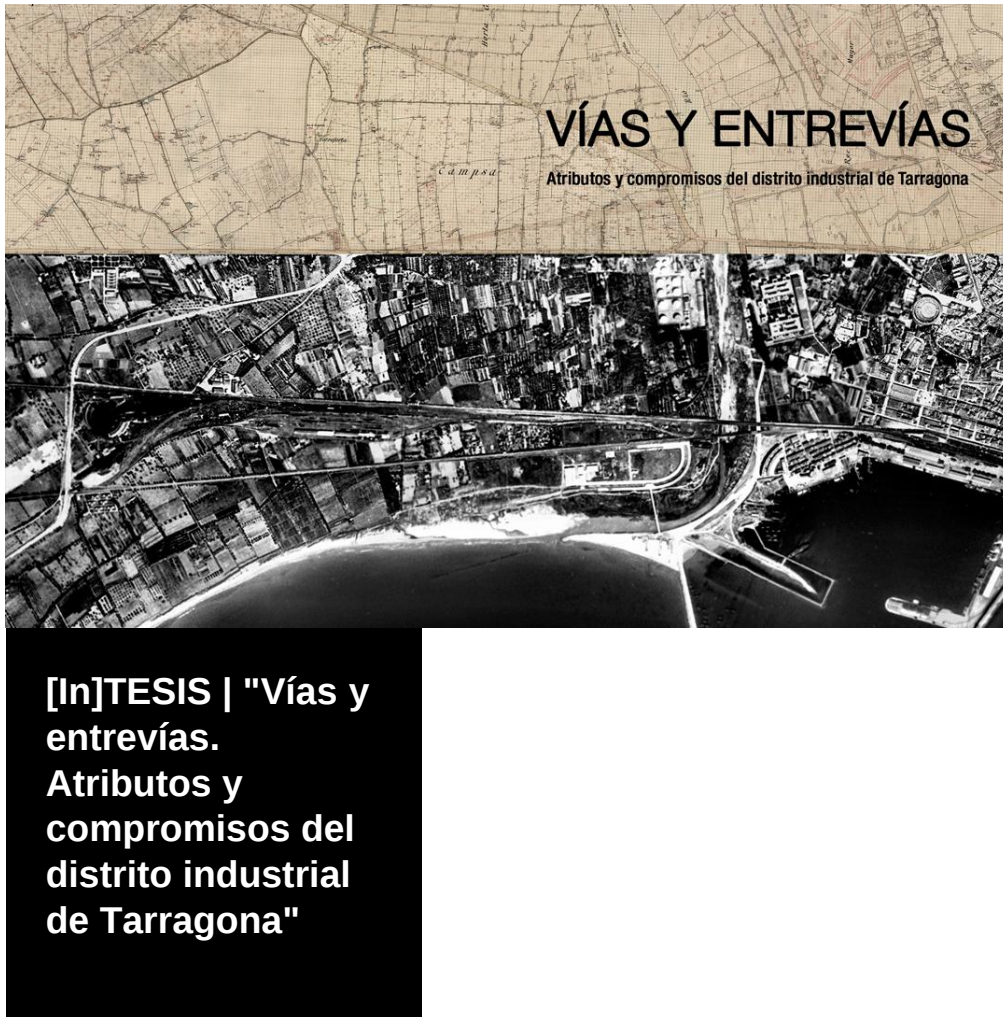

The work built by LACOL Arquitectura Cooperativa includes, the housing cooperative La Borda (2014-2018), Comunal Espai Cooperatiu (2016-2020), housing cooperative La Balma (2017-2021), Coopolis Bcn Phase 0. (2016), reform works and other multi-family housing projects that are in process.

On Thursday, November 17, 2022 we continue with a new conference of the inTESIS cycle. This time Dr. architect **Juan Manuel Zaguirre Fernández** will talk to us about "Vías y entrevías. Atributos y compromisos del distrito industrial de Tarragona", a thesis that has been directed by the professor of urban planning Josep Parcerisa Bundó of the Polytechnic University of Catalonia (UPC).

Analysis of the form and structures in interest to understanding foundational logics, assessing urban events impacts and phenomena, revealing Tarragona industrial districts attributes. Recognize the *duality* that has been caused between a periphery marked by infrastructures determination and their marginal condition, and a city that, traditionally deals with your center rationalization. Transformation of a territory that has achieved its occupation supporting itself on the strength of unrelated layouts and which would have procured urban exclusion in the space created, analyses how urban possibilities are taking root amidst these conflicts. Examines the initiatives of urban planning as a reflection of the social and technological changes, boosted by the expansion and development policies that marked this period. Concludes from the perspective regarding the recognition of how socioeconomic structures have been deployed in this territory, vindicating the Tarragona urban project has pending regarding its periphery.

At the end of the event there will be a **dinner-discussion** with the speaker at the Barhaus restaurant. If you are interested in attending, you can contact tarragona@coac.cat.

Con el título **Manresa, en la región del Llobregat ? Cardener?**, la Demarcació de les Comarques Centrals acogerá el jueves, **9 de junio a las 18.30 h** una conferència del arquitecto **Manel Larrosa**.

El peso regional del entorno de Manresa, en una mirada de escala catalana y la experiencia de FemVallès: economía, regionalización, infraestructuras, gobernanza metropolitana serán los temas de su ponencia.

Manel Larrosa es arquitecto desde 1978. Fue concejal de Urbanismo de Sabadell entre 1979 y 1987 y ha participado en diversas iniciativas y proyectos de planeamiento urbanístico, como el Fórum Terrassenc que formuló la Vía Verde Sant Llorenç-Collserola , la Vía Verde de Cerdanyola por la ampliación de la UAB o el plan estratégico de Terrassa.

Forma parte de la plataforma FemVallès, una asociación de entidades económicas, sindicales, profesionales y sociales, cuyo objetivo es potenciar la importancia económica y superar la condición de periferia metropolitana en la que el Vallès ha estado permanentemente situado,

On the occasion of the exhibition **The Vienna Model - Housing for the Twenty-First-Century City** opening, architects **Bettina Götz** and **Richard Manahl** from the Austrian architectural studio **ARTEC** and architect and *Professor in History and Theory of Architecture* **Josep Maria Montaner** will give an inaugural talk on **Thursday 15 July at 5 pm**, followed by an open debate with the speakers.

The event aims to both introduce and discuss the Vienna model, as well as to foster exchange and mutual learning (between Vienna and Barcelona) on sustainable and innovative strategies towards affordable housing in urban agglomerations.

The conference will be held in English and followed by the opening of the exhibition curated by Wolfgang Förster y William Menking, designed by MVD Austria and organised in Barcelona by Lorenzo Kárász, director of Guiding Architects Barcelona.

Registration is necessary because the capacity of the room is limited.
COMPLETE CAPACITY. Follow the session **here**.
